

HEALTH CARE

Approved by General Membership

May 12, 2009

SCPD PAC supports the concept of Universal Single Payer Healthcare and recognizes that SPAN-Ohio is the only grassroots group in the state with strong backing among progressive groups, labor and social action community groups. SPAN-Ohio would expand Medicare to cover all Ohioans regardless of health status or income. SCPD Pac recognizes the moral imperative of the healthcare crisis in America and will work to ameliorate the inequalities that currently exist. We also support Congressman Conyers' plan for universal health care in the United States. If single payer health care is not a politically viable option, we do still advocate universal affordable healthcare for all United States residents with a public plan option.
