

Recall amounts to a waste of money

If Akron does vote the mayor out of office, who is going to replace him?

With 20 years of experience as a graphic designer, I cannot get a job. As a result, I am one of many fighting to keep my home. For one-tenth of what it would cost to have a special election, I could stop the foreclosure that is hanging over me and maybe help 10 more families.

We had the chance to vote Don Plusquellic out of office in 2007. We need some real solutions to very serious problems, including jobs and health care. I do not like everything the mayor does. So I either write a letter or tell him when I see him at an event or vote against what I do not believe in.

I suggest doing the same, instead of spending more money the city does not have.
