

Get registered

As one of the many who collected signatures to put Senate Bill 5 on the ballot, I was happy to hear that over 1 million signatures were collected. This will give all Ohioans a chance to decide whether this is a good law.

That is, if they are registered to vote and get out and do so. The most gratifying thing about everything surrounding Senate Bill 5 is that people cared enough to get off their overweight backsides and get involved.

People ask why does government, the rich, or some interest group get away with something. It's because the people let them. We are the bosses of the Congress, state senators and representatives, Gov. Kasich and President Obama.

Please make sure you are registered to vote for the November election. Then, please vote. It really does matter.
